

Preventative Maintenance - Refrigeration Checklist

(Note: dependent on equipment type)

Refrigeration Equipment:

- ✓ Walk-in coolers and freezers
- ✓ Reach-in coolers and freezers
- ✓ Preparation counters
- ✓ Ice-makers

Semi-Annual Inspections:

- ✓ Check and clean evaporator and condenser coils
- ✓ Check and defrost operation on freezers
- ✓ Check crankcase heater operation
- ✓ Check amperage - draw on all motors and compressors
- ✓ Check water valve operation on water cooled units
- ✓ Check hi-limit and low pressure controls
- ✓ Check low ambient controls
- ✓ Check freeze start controls
- ✓ Check temperature setting controls
- ✓ Check for oil leaks
- ✓ Check freon levels
- ✓ Check indicator lights and door seals
- ✓ File report to customer detailing work done and recommend repairs or procedures
